Letter of Declaration

To whom it may concern,

Regarding the target genes of SARS-CoV-2, we hereby declare Mole's products including **2019-Novel Coronavirus (ORF1ab, E & N genes) Nucleic Acid Test Kit, SARS-CoV-2 Realtime PCR Test Kit, and SARS-CoV-2 Antigen Test Cassette** can detect all SARS-CoV-2 variants discovered so far including but not limited to all VOCs labeled by WHO: Alpha (B.1.1.7), Beta (B.1.351), Gamma (P.1), Delta (B.1.617.2), Omicron (B.1.1.529), and others important variants like Lambda (C.37), Mu(B.1.621), Kappa (B.1.617.1), Eta (B.1.525), etc.

Mole Bioscience will continue to follow closely the mutation of SARS-CoV-2 and update the newest information. We will still evaluate and verify the products performance in time to ensure that our products always have high sensitivity, specificity, and accuracy in the detection of the SARS-CoV-2.
